

# MX ASIA 2006 MISSION

17 and 18 July 2006 in Singapore and Malaysia

## Introduction

In conjunction with IBC's Mx Asia 2006 conference, DN Venture Partners is proud to support the event by organising the Mx Asia 2006 Business Mission. This mission, designed especially for the delegates of Mx Asia 2006, will bring participants to Singapore and Malaysia with the aim of delivering first-hand information, linking participants with key industry players and presenting business opportunities in Asia's medtech scene.

Make full use of your participation at Mx Asia 2006 and join us on the business mission!

Industry events in Asia - hunting ground for opportunities.

Meeting with key industry players.

Briefing session from technology company.

### Example: Asia Biotech Business Mission 2005

A visit to the Biopolis, Singapore.

The Asia Biotech Business Mission 2005 took place in November 2005. The mission participants made up of top and senior executives from the Dutch, German and Swiss biotech industry. Over a period of 5 days, they visited Singapore, Malaysia and Thailand, and **met with over 30 organisations**, representing the local biotech industry in these three countries as well as Taiwan. The mission came to a successful conclusion with the participants gaining an in-depth understanding of the biotech scene in Asia. More importantly, the participants also **made invaluable contact with the key industry players** from both the government and private sector in the respective countries.
